

LIST OF TABLES

	Page
Table 1. Sites containing excavated components attributed to the Shuswap horizon (ca. 4000/3500-2400 BP)	78
Table 2. Sites containing excavated components attributed to the Plateau horizon (ca. 2400-1200 BP)	79
Table 3. Sites containing excavated components attributed to the Kamloops horizon (ca. 1200-200 BP)	81
Table 4. Diameters and depths of single component excavated housepits on the Canadian Plateau (excluding Mid-Fraser region)	83
Table 5. Diameters and depths of single component excavated housepits from the Mid-Fraser River region	85
Table 6. Metric attributes of Plateau Pithouse tradition projectile points	86
Table 7. Chipped stone artifact types present in investigated Plateau Pithouse tradition components	87
Table 8. Pecked and ground stone artifact types present in investigated Plateau Pithouse tradition components	89
Table 9. Bone artifact types present in investigated Plateau Pithouse tradition components	90
Table 10. Antler, tooth, claw, and shell artifact types present in investigated Plateau Pithouse tradition components	91
Table 11. Identified faunal species present in investigated Plateau Pithouse tradition components	92
Table 12. Late prehistoric radiocarbon dates from Canadian Plateau sites	94
Table 13. Late prehistoric Canadian Plateau radiocarbon dates	102
