

CONTENTS

Preface	Page xi
CHAPTER	
1. Introduction	1
Ethnographic and historic evidence of dogs.....	2
Research methods.....	3
Prehistoric skeletal evidence.....	3
Previous studies.....	4
2. The Skeletal Sample	6
Sampling strategy.....	6
Data set description.....	6
Archaeological context and dating.....	7
Problems presented by the data set.....	8
Sex determination.....	8
Measurement definitions.....	9
Taxonomic status.....	9
3. Statistical Procedures	13
Evaluating of sample variation	13
Interpreting sample variation	16
Multivariate analysis.....	18
4. Crania	22
Osteological descriptions	22
Sex determination and sex ratios	25
Type classification	26
Discriminant function analysis.....	27
Previously reported NWC material:type classification.....	27
Comparison to other data sets.....	27
Intact puppy crania	29
Measurement definitions and data tables.....	37
5. Mandibles	38
Osteological description.....	38
Sex determination and sex ratios.....	38
Type classifications.....	40
Discriminant function analysis	40
Previously reported NWC material:type classification	40
Measurement definitions and data tables.....	41

CONTENTS (con't)

CHAPTER	Page
6. Forelimb Elements	46
Scapula, humerus, radius, ulna, and metacarpals: Osteological description, type classification, discriminant function analysis.....	46
Previously reported material: type classification.....	47
Measurement definitions and data tables.....	47
7. Hindlimb Elements	58
Innominate, femur, tibia, fibula, tarsals and metatarsals: Osteological description type classification, discriminant function analysis.....	58
Previously reported material: type classification.....	59
Measurement definitions and data tables.....	59
8. Vertebrae	70
Cervical, thoracic, lumbar and sacrum: Osteological description, type classification, discriminant function analysis.....	70
Definition of vertebral measurement codes.....	71
9. Characterization of Dog Types	87
Variation of type classifications within individuals.....	87
Live shoulder height estimates.....	88
Body proportion estimates.....	89
Osteological and morphological characteristics of dog types.....	90
Comparison to other prehistoric dogs.....	90
10. Distribution and Chronology of Dog Types	99
11. Summary and Discussion.	103
Recommended analysis methods for future studies	104
References	106
APPENDIX A - N. Shigehara, S. Onodera and M. Eto Sex determination by discriminant analysis and evaluation of non-metrical traits in the dog skeleton.....	113
APPENDIX B Catalogue of Archaeological Specimens used in this Study	127
