

LIST OF FIGURES

Figure		Page
1.1	Map of Central Coast showing excavated sites.....	2
1.2	Approximate time range represented by excavated sites.....	3
1.3	Map of surveyed sites in the Bella Bella-Bella Coola region....	4
2.1	Proposed sea level curve Bella Bella-Bella Coola region.....	16
2.2	Map of Central Coast showing distribution of sites yielding chipped stone artifacts.....	17
2.3	Distribution of archaeological sites included in this study....	20
2.4	Schematic profile of McNaughton Island Site.....	24
2.5	Bifacially flaked points.....	31
2.6	Bifacially flaked points.....	34
2.7	A burinated point from FbSu 1.....	35
2.8	Backed bifaces.....	35
2.9	A backed biface from FbSu 1.....	36
2.10	Large crude bifaces.....	37
2.11	Stages in the production of backed bifaces.....	37
2.12	Unifaces.....	38
2.13	Edge angles, unifaces.....	39
2.14	Notches.....	41
2.15	Spurs.....	42
2.16	Edge angles on unifacially edge modified flakes.....	43
2.17	Unifacially edge modified spalls.....	44
2.18	Edge angles on unifacial spalls.....	45
2.19	Unifacial core tools.....	46

LIST OF FIGURES Continued

Figure	Page
2.20	Bifacial Core tools..... 47
2.21	Unifacial pebble tools..... 48
2.22	Edge angles on unifacial core and pebble tools..... 50
2.23	Bifacial pebble tools..... 51
2.24	Edge angles on bifacial core and pebble tools..... 52
2.25	Types of edge angles measured..... 53
2.26	Edge angles on miscellaneous flakes..... 53
2.27	Prepared flakes..... 54
2.28	Multidirectional cores..... 56
2.29	Pebble cores..... 57
2.30	Microblade core from FbSu 1..... 58
2.31	Early traditions of lithic technology on the Central Coast..... 60
3.1	Map of Vancouver Island and adjacent mainland..... 66
3.2	Map of Hardy Bay and the O'Conner Site..... 72
3.3	Aerial photograph of the O'Conner Site..... 73
3.4	Map of the O'Connor Site..... 74
3.5	View of stratigraphy of Area One, Unit H..... 77
3.6	View of stratigraphy of Area One, Unit K..... 78
3.7	View of stratigraphy of Area Two, Unit P..... 79
3.8	View of stratigraphy of Area Two, Unit Q..... 80
3.9	Profiles of Area One, Units G, J, and L..... 81
3.10	Profile of Area Two, Units Q, P, and M..... 82
3.11	Ground slate ponts and chipped stone bifaces..... 85
3.12	Miscellaneous chipped stone..... 86
3.13	Celts..... 87

LIST OF FIGURES Continued

Figure	Page
3.14 Lignite pendant.....	88
3.15 Shaped abrasive stones.....	88
3.16 Unshaped abrasive stones.....	89
3.17 Frequency graph: abrasive stones and slabs.....	91
3.18 Barbed projectile points.....	92
3.19 Ulna awls-perforators.....	95
3.20 Splinter awls-perforators.....	96
3.21 Needles and bird bone awls-perforators.....	96
3.22 Deer metapodial artifacts.....	98
3.23 Wedge-based and miscellaneous bone points.....	99
3.24 Large bone points.....	100
3.25 Miscellaneous and large bone points.....	101
3.26 Frequency graph: miscellaneous bone points.....	102
3.27 Bipoints, undifferentiated tip development.....	104
3.28 Bipoints, differential tip development.....	105
3.29 Frequency graph: bipoints.....	106
3.30 Frequency graph: fragments of pointed bone objects.....	107
3.31 Miscellaneous bone artifacts.....	
3.32 Miscellaneous bone artifacts.....	109
3.33 Frequency graph: worked bone.....	109
3.34 Ground shell.....	110
3.35 Tooth artifacts.....	111
3.36 Distribution of obsidian.....	115
3.37 Circular hearth from Area One, Unit H.....	118

LIST OF FIGURES Continued

Figure	Page
3.38 Circular hearth cluster from Area One, Unit I.....	119
3.39 Circular hearth and ash feature from Area One, Unit H.....	120
3.40 Vertical distribution of major artifact groups.....	121
